QUICKDRAW GUIDE

VESTA SPORT

Created with sport climbing in mind, these quickdraws feature an ergonomic 12 cm vari-width nylon sling for grabbing while projecting. They have finger grooves on the top keylock solid-gate carabiner for improved clipping and come in two variations with different bottom carabiners: either a keylock solid-gate or the Vesta Sport Mix model with a simple wiregate carabiner on the bottom to shave a little weight.

102g/106g

FIREFLY II MIX

Available in 11 or 16 cm dyneema sling lengths, the Firefly features a keylock carabiner with finger grooves to ease clipping and unclipping.

81g/83g

FIREFLY II

Switching out the keylock top carabiner from the mix to a simple wire gate shaves some weight. This version also come with the same 11 or 16 cm dyneema slings. Everything you need to get into sport climbing with no compromises in terms of function or safety.

74g/76g

ECHO MIX

The carabiners on the Echo are hot forged with a wider basket and 25kN rating for added strength and durability. The keylock top carabiner has finger grooves in the gate for improved clipping. Available in 11 or 16 cm dyneema sling options.

76g/78g

CERES II ULTRALIGHT

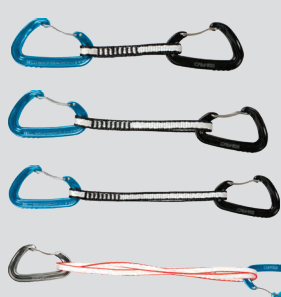

These quickdraws' options for Dyneema sling lengths include 11, 16, 20, 25 and 60cm to ensure you always have the right size handy throughout wandering routes, roof pulls, ledges, and reachy clips. All sizes feature compact and lightweight wire gate carabiners.

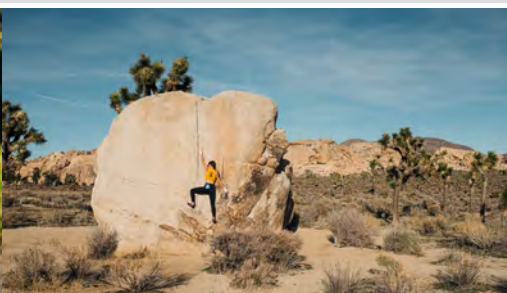

66g/68g/69g/71g/76g

MYDAS ULTRA

Designed with the technical needs of alpine/trad climbers in mind, the dyneema sling lengths are available in lengths 11, 16, 20, and 60cm. Boasting an incredible 24g in weight, the hot-forged Mydas Ultra II carabiner is one of the smallest and lightest carabiners on the market while maintaining a high strength rating of 22kN.
